

## How can we link Online Safety to our Values Based Education?

By linking Online Safety to our Values, we hope that the key messages will become more embedded and that our pupils will be able to better develop the important skills which will help keep them safe when online. Because of each of our school's uniqueness and individuality, this will look different at each site so it is the Online Safety Coordinators choice as to how their school can best make this link. Below are some ideas for ways that this could be implemented but each school will develop its own system and will find new ways to make the link between Online Safety and Values.

### **Our Value this term is Respect.**

- Respect is feeling good about myself.
- Respect is knowing I am unique and valuable.
- Respect is knowing I am lovable and capable.
- Respect is listening to others.
- Respect is knowing others are valuable too.
- Respect is treating others nicely.

**Example of short overview which could be shared with staff, pupils and parents via newsletters, staff meetings, website, displays, posters etc.**

### **I can show respect online by...**

- ...treating others as I would like to be treated.
- ...having a positive digital footprint.
